at the  
**AOG**

**AUSTRALASIAN OIL & GAS  
EXHIBITION & CONFERENCE  
22-24 FEB 2017  
PERTH CONVENTION EXHIBITION CENTRE**

► Visit us on **Stand C14**, and join us for an on-water demo!

**Teledyne Marine** and **UVS** will jointly participate in the upcoming **Australasian Oil and Gas Conference** in Perth, Australia, February 22-24, 2017. In addition to our combined exhibit on stand C14, we'll also be conducting informative on-water demonstrations near the conference centre.

**On display at stand C14 will be:**

- Teledyne Marine's interconnect and cable solutions
- Teledyne Cormon's corrosion monitoring tools
- An interactive touch screen to guide you through our full spectrum of vehicle, instruments, interconnect, and imaging solutions for offshore energy applications.

**Our on-water demos will include the following Teledyne Marine products:**

- Teledyne Oceanscience Z-Boat / Teledyne Odom CV 100
- Teledyne Seabotix LBV300-5 Mini ROV with crawler option
- Teledyne RESON T50-P Multibeam Sonar
- Teledyne BlueView M900 Imaging Sonar

Our demos will take place onboard the *Classy Lady*, which will depart from the nearby Elizabeth Quays.

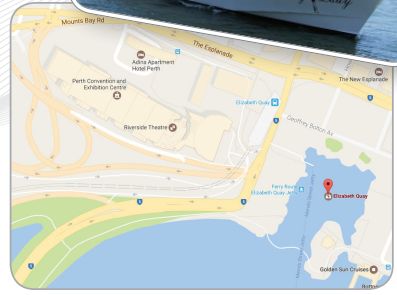

Please [click here](#) to pre-register to reserve your space on board one of our cruises.

For your comfort, we will provide a shuttle service between the Perth Convention and Exhibition Centre and the quay.
