

TASKER C2 System

TASKER Control System

Pilot Center

*Autonomous
Mission Planning*

*Mobile Command
Center (MCC)*

Real time video

Operate it from anywhere - Shore, shipboard, or riverine craft

Control it through the user-friendly Pilot Center interface - autonomous, semi-autonomous, or full control missions.

Situational awareness - Mission Map, real-time video and centered sensor interface

Multiple Mobile Control Center (MCC) options via command center, laptop, tablet, or ground control station

Requires minimal training to operate

Online compatibility allows multiple operators to collaborate

Multi-Layer communications for control reliability
