

UVS Supports Nautilus Minerals with Oceanographic Equipment Rental

UVS has supported Nautilus Minerals with a range of oceanographic equipment from the UVS rental pool for environmental assessment at sites in New Guinea. Nautilus' copper-gold project, Solwara 1, is under development in the territorial waters of Papua New Guinea.

Kevin Cain, VP - Projects for Nautilus Minerals, said that the equipment provided from the UVS rental pool had been essential for completing environmental assessment for the Solwara 1 project.

Navy, Army and Air Force Gather At Saab Seaeye

Officers from an international group representing Navy, Army and Air Force gathered at Saab Seaeye in Fareham, Hampshire, UK. Saab Seaeye is represented in Australia by ATSA Defence Services, a BlueZone Group company.

Recently, the company hosted an international group of maritime mine threat experts that included the Deputy Director of the NATO Underwater Research Centre, who examined a wide range of mine counter-measure underwater vehicles, including one for the disposal of underwater IEDs.

Z-Boat Shows Style in Sydney Swimming Pool

The Teledyne OceanScience Z-Boat was demonstrated to a gathering of interested delegates at the International Coastal Symposium in March 2016 at Sydney. Dangerous surf conditions prevented the launch of the Z-Boat in Coogee Bay, however, the hotel was pleased to offer the use of their pool for the lunch time demonstration. Although restricted by the small demonstration area available, the power, versatility and manoeuvrability of the Z-Boat was easy to see.

UVS / BlueZone Group at Australian Oil & Gas in Perth

The UVS / BlueZone Group stand hosted a steady stream of visitors at Australian Oil & Gas in Perth in February. UVS was located directly across from the Teledyne Marine stand and this enabled many customers to talk directly with Teledyne experts and then discuss local applications with UVS staff who can provide local support and back up for all enquiries.

Subsea Cable Moulding for Demanding Applications

"Many cable moulding applications look simple on first inspection", said General Manager Offshore Oil & Gas, Mark Musarra, "However, the devil really is in the detail when it comes to getting cable assemblies and cable moulding correct every time". "UVS draws on many years of cable moulding experience for demanding customers in the Offshore Oil & Gas industry", said Mark, "And this means we can approach complex jobs with confidence and also guarantee our work for use in harsh conditions".
