

QUALITY POLICY

BlueZone Group provides products and services to the defence, oil and gas, oceanographic, hydrographic and water resources markets.

Our core business is “keeping water away from electronics”

BlueZone Group is committed to maintaining accreditation to AS/NZS ISO9001, for design, systems engineering, service, test and repair of electronics equipment in the commercial and defence industries, including buying and reselling of OEM products, technical through-life support, servicing and repair of stand-alone components and units to manufacturer's specifications.

The Company's commitment to implementing and maintaining each and every element of the Quality Management System is described in the Quality Manual. More detailed instructions are contained in the Company's Quality System Procedures.

BlueZone Group acknowledges that a Quality System is an integral part of running a business in a professional and economic manner and to achieve our objectives we:

- Implement and maintain a Quality System which complies with ISO9001
- Ensure through training and audits, that all company personnel are fully proficient at implementing the requirements of ISO9001

All employees are to comply with the Company's Quality Policy and Objectives as stipulated in the Quality Manual, the Quality System Procedures and other specified documents to ensure that this policy is implemented and maintained.

By virtue of our commitment to this process, BlueZone Group will continue to deliver to its clients, service and products that exceed their expectations.
